JEROM ISSAC T S

SOFTWARE ENGINEERING | AI APPLICATIONS | FULL-STACK DEVELOPMENT

jeromissac2004@gmail.com | linkedin.com/in/jerom-issac-t-s | github.com/JITS2404 | jerom-issac.vercel.app

PROFILE

Incoming MSc Data Science, AI and Digital Business student and Computer Science (Hons) graduate with hands-on experience building AI-powered applications, full-stack systems and data-driven products. Strong in Python, JavaScript, React, Node.js, PostgreSQL, REST APIs, Docker and generative AI integrations, with experience translating requirements into robust, maintainable solutions and measurable operational impact. Interested in AI-enabled product development, scalable software, automation and end-to-end ownership.

PROFESSIONAL EXPERIENCE

AI Application Developer (Full-Stack) | Rathinam Group of Institutions — Coimbatore, India | Aug 2025 – Feb 2026

- Built AI-assisted internal applications that replaced manual workflows, reducing operational turnaround time by 38% across 8+ teams.
- Integrated generative AI interfaces with organizational data for natural-language querying, reducing executive reporting cycles by 60%.
- Designed KPI and decision-support systems processing 10K+ records monthly, combining application logic, databases and automation.
- Worked end-to-end across frontend, backend, databases, APIs and AI integrations, converting business requirements into practical software.

Data Analytics Specialist | Digital Learning & Professional Society, Rathinam Technical Campus — India | Jan 2025 – Jul 2025

- Analyzed data using Python and Power BI, improving reporting accuracy by 28%, and built dashboards and automated reporting workflows.
- Developed performance tracking and predictive-analysis workflows contributing to a 15% improvement in reported academic outcomes.
- Consolidated multi-source data and established standardized KPI frameworks for structured decision support.

SELECTED ENGINEERING PROJECTS

EduMetric — Institutional Placement Intelligence System | Full-Stack | PERN

- Built a centralized product for placement analytics, managing 10K+ student records annually and replacing fragmented spreadsheet workflows.
- Implemented a configurable scoring engine with weights, caps and targets, reducing reporting turnaround time by approximately 40%.

Cerebra — AI Assistant | Python | Generative AI APIs

- Built an AI assistant integrating conversational AI/API capabilities into an application workflow, with emphasis on practical task automation and natural-language interaction.

EchelonX — Economic Shock Simulation Engine | Full-Stack | PERN

- Built a scenario-driven simulation platform with multi-step evaluation in under 2 seconds and causal dependency analysis for structured decision support.

Enterprise Operational Governance Architecture (EOGA) | Full-Stack | PERN

- Developed multi-role workflows, validation and audit logging for 10K+ operational records per month; KPI dashboards improved operational visibility by 41%.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL | Frontend: React, Vite | Backend: Node.js, Express.js, REST APIs | Databases: PostgreSQL, Supabase | AI: Generative AI APIs, Prompt Engineering, TensorFlow, DeepFace | Engineering: Git, GitHub, Docker, microservices, Kubernetes, CI/CD, Terraform, Jenkins, Nginx | RPC,REST; Kubernetes Docker; Python , Rust | Systems & Concepts: scalable software, automation, data pipelines, maintainability, testing, documentation, cloud fundamentals

EDUCATION

MSc Data Science, AI and Digital Business | GISMA University of Applied Sciences — Berlin, Germany | Sep 2026 – Sep 2027

Bachelor of Engineering in Computer Science (Hons) | Rathinam Technical Campus — Coimbatore, India | 2022 – 2026 | CGPA: 8.66

LEADERSHIP, PATENTS & CERTIFICATIONS

Leadership: Vice President, AIC Raise Young Entrepreneur Society; Event Management Lead, national-level techno fest; Volunteer, Anugraha freshman induction; Participant, 24-hour Rathinam Idea Arangam Hackathon | Patents: Published Indian Patent Applications — Medical Reminder and Health Logger System (202541119394); Hospital Finder in Urgent Situations (202341070111) | Certifications: Generative AI for Business — IBM; Qlik Sense Business Analyst — Qlik; Financial Markets & Investment Risk Management — Yale; Deep Learning using PyTorch
